FIRE WARDEN*To the Citizens of Gilmanton:*

Our forest lands represent a substantial proportion of the town's valuation. They provide income to our citizens, from the sale of forest products and through employment to woods' workers. The protection of our forest lands is essential to the continued welfare of the town. Fire is the forests' worst enemy. It not only destroys the growing crop but leaves the land in such condition that nothing of value will grow for a long period of years. In addition it costs good tax money to extinguish forest fires.

An analysis of forest fire records indicate that 97 per cent are man-caused and consequently avoidable. Careless-

ness and failure to comply with reasonable regulations governing the building of fires in and near woodlands has been costly to both towns and individuals. Through elimination of the human equation, forest fire losses would be reduced to a minimum. This is possible if every citizen would be careful, familiarize himself with burning regulations, comply with them and then use proper discretion.

We have been particularly fortunate in this town since the hurricane in not having had more serious fires. This is due in part to the strictness of our wardens in issuing permits and splendid cooperation on the part of the public. Great care is needed because conditions in our blown-down areas are more critical with down material drying out and becoming more highly inflammable. *The continued cooperation* of every one is necessary.

We should all remember that:

1. *Written permission of the local forest fire warden to burn brush, rubbish or other debris in or near woodlands or where fire may be communicated to woodlands is necessary when the ground is not covered with snow.* Violation of this requirement makes the responsible party liable—
 - a. To a fine not to exceed five hundred dollars or imprisonment of not more than one year or both.
 - b. To the town for expenses incurred by the warden or deputy warden in attending or extinguishing such fire.
 - c. For damages to abutting owners if the fire runs onto the abutters' property.
2. It is a violation of the Forest Laws of the state to—
 - a. Drop or throw any lighted match, cigar, cigarette, live ashes, or any other substance liable to cause a fire, from any vehicle while the same is upon a public highway or private way.

- b. Drop, throw or otherwise deposit on or near woodlands any lighted match, cigar, cigarette, live ashes or any other substance liable to cause a fire.

Violation of these prohibitions penalizes whoever is found guilty by a fine of \$25.00.

3. You should promptly notify your local forest fire warden of any fires you see.
4. The forest laws are being more strictly enforced each year.

Your cooperation will save the warden considerable worry; you and your town much trouble and expense.

The 1940 fire record for our town follows:

Number of fires	1
Acreage burned	2
Number of permits issued	24
Cost of suppression	\$11.81

REPORT OF SCHOOL BOARDS

TILTON-NORTHFIELD SUPERVISORY UNION

On Friday, October 11, 1940, Channing T. Sanborn, superintendent of schools in the supervisory district comprising the school districts of Tilton-Northfield, Belmont, Canterbury, Gilford, and Gilmanton, died at his home after an illness of a few hours. He was stricken at his office in the high school soon after his arrival in the morning and succumbed of shock in the afternoon. Services were conducted by the Rev. J. Osborne Crowe, in the Congregation church on Sunday afternoon. Burial took place in the Park cemetery. Bearers were Arthur Bacon, Chester Worthen, Headmaster Willard H. Smith, Leon Lawrence, Myron Meserve and Robert McCook.

Channing T. Sanborn was born in Concord, Feb. 12, 1875, the son of Alfred L., and Elizabeth (Shallis) Sanborn. He attended schools there and was graduated from Dartmouth in 1900, starting a long career as an educator soon after. His record in educational work included:

1901-1905 Principal of grammar school, Wolfeboro.

1905-1910 Superintendent of the Supervisory district including the towns of Wakefield and Milton.

1910-1915 Superintendent of schools, Pittsfield, Chichester, and Loudon.

1915-1940 Superintendent of schools—Tilton-Northfield, 1915-1940; Belmont, 25th year; Canterbury, 7th year; Gilford, 25th year; Gilmanton, 7th year.

He worked tirelessly for the modernization of the school systems, consolidation of rural schools, improve-

ment in buildings, transportation of pupils, higher standards for teachers, and enrichment of the curriculum.

In respect to his memory, these Resolutions were voted:

Whereas:

Our Heavenly Father has seen fit to call unto His home our leader and guide, Channing T. Sanborn.

and Whereas:

Sensible of our great loss and mindful of the indelible mark left upon each and all whose good fortune it was to come in contact with him, pupils, parents, teachers, headmasters and citizens.

and Whereas:

His sincerity of purpose and high ideals together with his high standards in educational and civic welfare reflected the goodness of his soul.

Be It Resolved:

That we, the members of the Tilton-Northfield Supervisory Union No. 59, unanimously go on record to perpetuate his memory and further resolve that a copy of these resolutions be presented to his devoted wife and family and be published in the next annual reports of the school districts of this supervisory union.

SCHOOL NURSE'S REPORT

*To the Townspeople, School Board,
and Superintendent of Schools:*

Some epidemic sickness was present in the Gilmanton schools this, last year, starting with a peculiar epidemic at Gilmanton Corner very similar to scarlet fever. The few cases seen by physicians were pronounced "scarlatina" but were not quarantined. Although the epidemic was quite widespread in this section of the town, there were no very serious cases. This Fall a few scattered cases of measles crept in from nearby towns but were confined to few families.

The Gilmanton Corner pupils with the aid of teacher, parents, and friends were able to raise enough money to have the privilege of a dental clinic. Only a limited amount of dental work was done on each child but those children who availed themselves of the opportunity have a good start towards complete dental correction for each child.

Nine children were fitted to glasses and ten children had tonsil and adenoid operations-eight of them in school clinics. Several more children were to have been done but were prevented by unforeseen circumstances. These will be done as soon as the weather is mild enough to make it safer.

Some social welfare work was possible through the co-operation of public officials with school authorities and several problems were settled to everyone's satisfaction.

Following will be found a statistical report of the health work done in Gilmanston schools last year:

Visits to schools	54
Visits to homes	251
Total visits	305
Days spent	28.4
Days due	27
Pupils examined	111
Defects found	189—1.7 per pupil
Defects corrected	53—28% of defects
Without defects	20—18% of pupils

I wish at this time to thank teachers, parents, and officials for their interest and cooperation in the school health work which has made it possible to build stronger bodies so that Gilmanston pupils may grow to be healthier citizens.

Respectfully submitted,

RUTH S. LANGILLE, R. N.

School Nurse

BUILDING ALTERATIONS

The School Board is considering changes in the buildings at Gilmanston Corner and the Iron Works, either to comply with State Board requirements or to make them more convenient for school purposes. Articles in the School District Warrant indicate what action the School Board deems essential.

I appreciate the assistance of the members of the school board and the teachers during these last six weeks.
